Demolition Counter Plan Correction Sheet

Plan Check Date: _______________ Plan Check/PCIS App. #: ____________________________

Job Address: __________________________________________________________________________

Reviewed by: _____________________________________________ Phone #: _______________________

Email: _________________________________________________________

INSTRUCTIONS FOR PROCEEDING WITH THE PLAN CHECK (PC) PROCESS:

1. Review corrections circled on this Plan Check Correction Sheet and marked on the plans and calculation sheets.
2. Bring the originally checked set of plans and calculations along with this plan correction sheet and the newly revised plans and calculations back to the counter so that a plan check engineer may review the corrections and comments.
3. Once all the items have been corrected to comply with the code requirements and clearances are obtained, the permit will be ready to be issued.

IMPORTANT ITEMS TO READ:

1. Your early attention is suggested to the approval process from other Departments as listed in the Clearance Summary Worksheet due to possible delays resulting from a public hearing or other processes required by other Departments.
2. The plan check will expire 18 months from the plan submittal date.
3. The approval of plans does not permit the violation of any section of the Building Code, other ordinance, or State law.

************************************************************************************************************************

PART I: GENERAL REQUIREMENTS

A. PCIS APPLICATION

1. Provide a fully dimensioned plot plan to scale, in ink on the PCIS application’s plot plan sheet. Show lot size, easements, alley, parking spaces, location, use and size of all buildings and any remaining parking spaces. 91.0106.3.2

2. Demolition permits must be obtained by a licensed wrecking contractor (Class C-21), or by a licensed general contractor (Class B-1) who is also the contractor for a new building to be erected on the same site. A Class-A licensed contractor may demolish structures that require special engineering knowledge and skill.

3. The property owner may obtain a demolition permit for one or two-story wood frame buildings where the maximum span does not exceed 25 feet.

4. The permit application must be signed by the property owner or licensed contractor or authorized agent at the time the permit is to be issued:

   a. For owner-builder permits: Owner's signature can be verified with owner's driver license. Additional documentation required for properties owned by partnership, joint venture, corporation, LLC, etc. Owner's representatives must present owner's approval with a notarized letter from the owner. Owner Builder Declaration form must be completed and signed by the property owner.

   b. For contractor building permits: Prior to the issuance of a building permit, the contractor shall have the following:

      i) Certificate of workers Compensation Insurance made out to the Contractors State License Board.

      ii) Notarized letter of authorization for agents.

      iii) Copy of Contractors State License or pocket ID.

      iv) Copy of City of Los Angeles business tax registration certificate or a newly paid receipt for one.

5. Provide a complete and correct legal description (Tract, Lot, Block, and a copy of the Grant Deed). Provide complete information for applicant, owner, engineer, architect, and contractor.
6. Obtain separate application for the following items:
   a) Grading work
   b) A separate structure
   c) Shoring

7. Project valuation is revised to $_____________

B. CLEARANCES
1. Obtain all clearances as noted on the attached Clearance Summary Worksheet. Prompt attention is suggested as it can take months for some departments to review the project. Comply with conditions given under approval prior to the permit issuance.

2. Obtain Los Angeles Fire Department permit for removal of or the concrete slurry filling of any underground tanks used for storage of flammable liquids.

3. Obtain a sewer capping plumbing permit.

4. The demolition of rental units (duplex, apartments, or 3 or more units on a lot or guest rooms rented for over 60 consecutive days) subject to Rent Stabilization requires that the applicant file a declaration and obtain clearance from the Los Angeles Housing Department.

5. This site/building is a Historical-Cultural Monument. An environmental assessment and California Environmental Quality Act (CEQA) review will be required to determine the environmental effects of the proposed demolition. See the Clearance Summary Sheet for contact address/phone. 91.106.4.5

6. Demolition of buildings containing 3 or more dwelling units located in the Coastal area (CZCA), requires City Planning clearance for the Mello Bill. Unless the project is found exempt by City Planning, clearance from the Los Angeles Housing Department is also required. Aside from the Mello Bill, a separate signoff for CZCA is required. See the Clearance Summary Sheet for contact address/phone.

7. Obtain approval from Public Works for removal of lateral support of public way due to proposed demolition work.

C. ADMINISTRATION
1. One set of plans will be required for permit issuance. Plans must be: (106.3.2.2., 106.3.3., R106.3.1):
   a. Quality blue or black line drawings with uniform and light background color.
   b. Max. 36’ x 48” size with minimum 1/8” lettering size.
   c. Sticky back details must produce prints without contrasting shades of background color.

2. Each sheet of the plans and calculations shall bear the signature, registration numbers and expiration date of an architect or engineer registered in the State of California.

3. The address of the building and the name/address of the owner are required on all plans. The name and the address of the consultants are required on their plans.

4. Provide with each set of plans:
   a. Construction section of ______________________
   b. Grading details for _________________________
   c. Provide method and sequence of building demolition.
   d. Complete safety precautions that are to be taken.
   e. Site drainage pattern after completion of demolition work.

5. Provide detailed plans and procedures showing that the demolition work will be conducted without creating a hazardous condition for the demolition of:
   a. Walls more than 20 feet in height between stories.
   b. A basement within ___ feet of another building.
   c. Footings adjacent to or extending below the footings of another building.
   d. A pre-stressed or post-tensioned structure.
   e. A building with five or more stories.
   f. Remaining portion when the entire structure is not to be demolished.

6. Comply with all noted corrections on the Demolition Pre-Inspection form.

PART II: BUILDING CODE REQUIREMENTS
A. GENERAL
1. Provide a protection fence (and canopy) along ............................................. Obtain a Street Use Permit from the Department of Public Works, Bureau of Street Services.

2. A _____ foot distance is required from building to street, alley, or property line for _______________ wrecking.

3. Provide the Method of Demolition on the plans (See IB P/BC 2011-039).
   a. Handwrecking - Use of small wheel mounted pneumatic tools will be permitted if first approved by building inspector.
   b. Dozer or Loader Wrecking - 1 or 2 stories, maximum 24 feet high building with yards greater than the height of building.
   c. Clam Shell Wrecking - requires yards greater than
½ times the height of the building, maximum 2
times maximum story height.
d. **Cable Wrecking** - requires yards greater than 1-1/2
times the height of the building.
e. **Ballwrecking** - requires yards greater than 1-1/2
times the height of the building, but not greater
than 50 feet.

4. Provide the following notes on the plans:
a. All debris shall be wet at time of handling to
prevent dust.
b. No structural member in any story shall be
demolished until the story above is completely
removed.
c. There will be no free fall dumping over exterior
wall for a height of more than 25 feet.
d. Call for inspection at least 24 hours before
starting work.
e. Approval of protection fences and canopies is
required prior to demolition.
f. All basement fills shall be clean and uniform.
g. Storage of materials on floors shall not exceed
______PSF live load.

5. An 8 foot high chain link fence must be provided
to prevent unauthorized entry to the vacant lot
after demolition.

6. 30-Day written notification to adjacent property
owner(s) is required due to the proposed
demolition work per IB P/BC 2011-060.

7. A copy of the Storm Water Pollution Control
(Form GRN 1) shall be attached to the plans.

**B. ADDITIONAL CORRECTIONS**
