## **Notice to Customers**

### **Installation of Photovoltaic Solar Electrical System**

Effective June 10, 2008, permits for the installation of Photovoltaic Solar Electrical System will no longer be available via the e-Permit System. These permits require approval from the Los Angeles Fire Department. Please contact the Los Angeles Fire Department's Construction Services Section at (213) 482-6900 for further information and requirements related to the Photovoltaic Solar Electrical System.
