SUPPLEMENTAL INFORMATION AND/OR SKETCH OF JOB CONDITION

BASIS FOR APPROVAL-INFORMATION

INFORMATION ON PROCEDURE FOR APPEAL FROM A DETERMINATION OR ACTION BY THE DEPARTMENT OF BUILDING AND SAFETY

For the Superintendent of Building or his designated agent to approve a request for modification or a request for alternate material or method of construction he must determine that special, individual reasons exist that make compliance with the strict letter of the ordinance impractical and that equivalency is provided for requests applicable to the State Housing Law. The resulting condition must be in conformance with the spirit and purposeof the ordinance involved. The applicant must provide sufficient information with this application to allow the above evaluation to be made.

Appeal from the determination or action of the Superintendent of Building or his designated agency may be made to the Board of Building and Safety Commissioners. To appeal, the appellant must give special individual reasons that make compliance with the strict letter of the ordinance impractical. Appeals pertaining to State Housing Law provisions require complete evidence to substantiate that proposed design, material, or method of construction is at least equivalent to that prescribed by the Code. State such reasons or evidence on the front of this form or on a separate attachment.

Permit	App	#:
--------	-----	----

Job Address:

CONDITIONS OF APPROVAL:

- 1. When installed in a non-sprinklered building, the egress control device shall be limited to use on the first story of the building only.
- 2. The egress-control device shall only be installed where a smoke-detection system is provided throughout the tenant space.
- 3. If a smoke-detection system does not exist, then a separate electrical permit shall be obtained for the installation of the smoke-detection system. The electrical permit must be approved by the Fire Department prior to issuance of the permit.
- 4. If only one exit is required from the tenant space, there shall be one code-conforming exit from the tenant space in addition to the exit with special egress-control devices. If two or more exits are required from the tenant space, then one exit with special egress device may be treated as a required exit.
- 5. The egress-control device shall automatically deactivate upon activation of both the sprinkler system (if provided) and the smoke-detection system.
- 6. The egress-control device shall automatically deactivate upon the loss of electrical power to any one of the following: the device itself, the smoke-detection system, means of egress illumination as required by Section 1006.3.
- 7. The egress-control device shall be capable of being deactivated by a signal from a switch located in an approved location. The signal or switch shall provide an audible and/or visual signal in the event the device will not allow exiting from the unit.
- 8. These conditions of approval shall be clearly shown on the approved set of plans.
- 9. The smoke-detection system and the egress-control device shall be field tested and approved prior to final approval of the building permit.
- 10. If the use of the building is changed to any other use, then the egress control device shall be removed, or a separate approval shall be obtained for the new use.
- 11. All electrical components of the egress control device shall be listed by an LA City approved testing agency.
