GUIDELINES FOR VEHICLE SALES
USE OF LAND PERMIT

I. BACKGROUND

In California, a Vehicle Dealer’s License is required by the Department of Motor Vehicles (DMV), when any person operates a business associated with sales of vehicles subject to registration or motorcycles subject to identification. In conjunction with an application for a license, the DMV will request the applicant to submit the “Property Use Verification For Vehicle Dealer’s License” form (see sample form on page 6). When requested by applicants, the Department of Building and Safety will complete the form for such businesses in the City of Los Angeles.

The DMV form will be completed and signed by a designated inspector of the Annual Inspection and Monitoring (AIM) Section. A list showing the names and phone numbers of inspectors is available at the Zoning Information Counter in the Department Offices or by telephoning the customer call center at 3-1-1. An inspector will verify that the proposed or existing use is approved by the Department and has a valid Certificate of Occupancy prior to approving the form.

This Information Bulletin is prepared to provide guidelines to assist an applicant to comply with the City’s regulations applicable to sale of vehicles or motorcycles.
