SWIS #: 19-AR-1264

Instructions for Completing Registration Application

Fill out this application form completely and accurately. After the Enforcement Agency has review[ed] the application, it will determine whether it meets the requirements of section 18104.1. If the Enforcement Agency finds that the application is complete and correct, a copy of this application and a permit will be returned to you. If the application is not found to be complete and correct it will not be accepted for filing. For additional information on the procedure used for processing this application refer to Title 14 of the California Code of Regulations, Section 181094 et. seq.

Facility Name: The legal name of the facility.

Facility Address/Location: The address of the facility and a description of the location if different.

Facility Operator/Land Owner: Provide both the mailing addresses and the location/address where process may be served.

Section Authorizing Eligibility.

You must determine the appropriate Section in Chapters 3 or 3.1 of Division 7 of Title 14 of the California Code of Regulations that authorizes eligibility. After determining the appropriate section list it on the application.

Site Capacity: Total capacity of material that can be stored at the site at any one time.

Peak Loading: Is the largest projected waste/material quantity to be received by an operation on any day of operation.

Annual Loading: Is the maximum amount of waste/material to be handled by an operation annually.

Days and hours of Operation: The days and hours that the facility is in operation.

Facility Size: The total acreage of the site.

Operating area: The total acreage that is used for all operations.

Traffic: State the maximum number of vehicles that will enter and haul incoming material or remove material on a daily basis.

The operator is required to supply performance-finding information. Whichever one of the two statements above is appropriate to your operation must be checked. To help you in making this determination, you can contact the Enforcement Agency, Local Task Force, or other solid waste-planning agency in your city or county.

The application must include a site map and a location map. The site map should include, but not be limited to, operations areas and their relationships to property boundaries, adjacent land uses, proposed drainage systems, any excavation areas, and any other portions of the site dedicated to a specific use. The location map should show the general location of the operation at a scale size minimum equivalent to 1:24,000 USGS topographical quadrangle.

This application must be signed, under penalty of perjury, by both the land owner and the operator

Pursuant to 14 CCR Section 18104.1(g), attached is a copy of the letter to the City of Los Angeles Planning Director transmitting the Registration Tier Solid Waste Facility Permit Application for the 365 Disposal & Recycling. Also attached is a delivery confirmation.

Pursuant to 14 CCR Section 18104.1(h), no public hearings or other meetings open to the public have been conducted regarding the 365 Disposal & Recycling Facility located at 11153 Tuxford Street, Sun Valley, CA 91352.

SENT VIA MESSENGER

June 12, 2020

Vince Bertoni, Director of Planning
City of Los Angeles Planning Department
Room 525, City Hall
200 North Spring Street
Los Angeles, CA 90012

RE: TRANSMITTAL OF REGISTRATION TIER PERMIT APPLICATION FOR 365 DISPOSAL & RECYCLING. MEDIUM VOLUME TRANSFER/PROCESSING FACILITY LOCATED AT 11153 TUXFORD STREET, LA, CA 91352.

Dear Mr. Bertoni:

As required under California Code of Regulations, Title 14, Division 7, Chapter 5, Article 3, Section 18104.1 (f), this letter transmits a copy of the CalRecycle registration tier permit application to allow 365 Disposal & Recycling, Inc. to expand their limited volume transfer and processing facility from 15 tons per day (TPD) to 100 TPD. The facility is located at 11153 Tuxford Street in the Sun Valley community of the City of Los Angeles on approximately 21,394 square feet of land within the M3 zoning district. 365 Disposal and Recycling, Inc. is proposing to expand their operations to process up to 100 TPD of CDI and mixed waste material.

The site is well situated for such a solid waste operation as it is located in the City of Los Angeles M3, Heavy Industrial zone, and has been operating as a limited volume transfer operation without any issues since April 2017. Adjacent businesses are industrial in nature and include auto salvage, a concrete batch plant, and auto repair. Properties within a 1,000-foot radius of the facility are zoned M3-1 (Heavy Industrial), M2-1 (Light Industrial), M1-1 (Limited Industrial) and R1-1 (One Family). There are approximately nine R1 properties located 840 feet west of the site on Fleetwood Street.

Under the requested registration permit, contractors, haulers and the public will bring up to 100 TPD of CDI and mixed waste material to the 365 Disposal & Recycling Facility where it will be sorted into the various commodities (metals, drywall, wood, yard waste, and plastics), and trucked offsite to processors or end markets. Any residual waste will be taken to a permitted landfill for disposal. The facility will provide a service to contractors, homeowners and the City by diverting recyclable material from being sent to local landfills.

Please feel free to contact me with any questions or comments. I can be reached at (310) 993-1676.

Best Regards,

Larry Miner, AICP CEP
