Crown Recycling Services

SWIS No. 19-AR-0303

June 27, 2024

Description of Project and LEA's Determination

The Crown Recycling Services facility is a 10.28-acre transfer station located at 9147 De Garmo Avenue in Los Angeles, California.

On May 28, 2024, the LEA received an application from Crown Recycling Services for a modification to the SWFP to remove the restriction of five solid waste categories that was put in place by the previous owner/operator.

The LEA finds that the proposed change is consistent with all applicable certified and/or adopted CEQA documents, is consistent with State Minimum Standards, and does not conflict with the terms and conditions in the current solid waste facilities permit. The LEA approved the modification and CEQA addendum on June 27, 2024.
